ANOTHER STRIKE THREATENS RUSSIA

Demands Are Made That Men Be Given Work.

ON THE VERGE OF STARVATION

Workmen Seek to Compel Employers to Reinstate Their Former Employes at an Advanced Wage—Situation Unchanged at Sebastopol.

St. Petersburg, Nov. 29.—The workmen's council threatens the country with another general strike to compel the employers of St. Petersburg who locked out about 70,000 men yesterday to re-open their doors.

The men had refused to return to work under the old conditions. The delegates have been dispatched to cities in the interior to ascertain whether they will support the movement.

Destitution is causing many workmen here to turn against the agitators. During the last strike actual starvation prevailed. The men had neither money to buy food or bury the dead.

There were cases of workmen remaining naked in bed at home having pawned every stitch of clothing to relieve hunger of their families and themselves.

Situaton at Sebastopol.

Sebastopol, Nov. 29.—The time-limit allowed the mutinous sailors to surrender expires today. The command of the cruisers Otchakoff, whose crew mutinied, has been assumed by Lieutenant Schedt who was dismissed from the service on account of his revolutionary tendencies.

The town council has asked for help to save the city.

Effect of Japan-Russian War.

Washington, Nov. 29.—It is believed in diplomatic circles here that the recent war between Japan and Russia had no little to do with the recent attitude of the sultan towards the European powers. It is a well known fact that Turkey has watched the war with the greatest interest. Japan and Turkey are no strangers to each other. In recent years the two sovereigns have exchanged presents and expressions of good will. The Turkish newspapers and the Turkish public opinion favored the Japanese cause from the beginning. Naval authorities here express the opinion that the Turks who have been trained fairly well by German and French officers, can defend the entrance to the sea of Marmora with a good hope of success.

Wants a Shipping Monopoly.

New York, Nov. 29.—A cable dispatch to the Herald from Berlin says that owing to the efforts of influential personages a meeting has been arranged in Berlin between Herr Ballin, the managing director of the Hamburg-American line, and Dr. Weigand, managing director of the North German Lloyd, and several other officials of both companies, when the matters now in dispute will be discussed. The opinion prevails here that Herr Ballin has succeeded to obtain the world's monopoly in German shipping, similar to that Rockefeller's position in the petroleum market. It is proposed that by an agreement at the meeting the dispute will be referred to arbitration.

Marshall Field, Jr., Dies.

Chicago, Nov. 29.—Marshall Field died Monday. Mr. Field, who was the only son of Marshall Field, the multimillionaire of this city, was accidentally shot on the afternoon of Wednesday, Nov. 22. He was examining a 32 revolver which he had purchased when it was discharged. The bullet struck in the right side, perforating the liver and spleen and injuring the spinal column.

Clamor for Universal Suffrage.

Vienna, Nov. 29.—Some 200,00 representatives of organized labor made a demonstration before the parliament buildings today and paraded the streets of the capital in support of their demand for the election of members of the reichsrath by universal, equal and direct suffrage.

CONSUMPTION IS CURABLE.

According to an Eminent Physician's Paper Read Before Convention.

New York, Nov. 29.—Consumption is curable, according to Commissioner Darlington, who spoke at the opening of the American Tuberculosis exhibition last night. "The first thing," said Mr. Darlington, "to do in combating tuberculosis, is to educate. Consumption is curable. Of the cases which we have taken in the last stages, 8 per cent have died and 60 per cent were able to return to work. Of school children examined, 48 per cent have nothing the matter with them and many are open to consumption. The board of health is trying to persuade the people not to buy patent medicine. It is no good. People trust in such medicines until it is too late to save them. Patent medicines are largely alcohol stimulants. The use of alcohol is death in tuberculosis. If people would leave alcohol alone they would greatly decrease the rate of death among consumptives.

"Only four things are necessary in the treatment of this disease—sunlight, fresh air, good food and rest."

Statistics, pictures and models from all parts of the country are included in the exhibition, which will be continued until Decembe 9th.

UNITED MINE WORKERS MEET.

The Adjustment of Wage Scale Will Come Before Body.

Indianapolis, Ind., Nov. 29.—The national executive board of the United Mine Workers of America composed of representatives of 23 districts of the United States, is in session at the headquarters of the organization in this city. The board was called to order today by President John Mitchell. Arrangements will be mad efor the coming national convention of the mine workers.

The most important matter to come before the convention will be the adjustment of the wage scale which affects at least 500,000 miners throughout the country.

Discussing this matter today Secretary-Treasurer Wilson stated that there was no foundation for the statement sent out from Pittsburg and attributed to President Mitchell that any attempt on the part of the coal operators' association to alter the present scale would result in a strike.

The convention will meet in this city on January 16th. On January 25th the joint convention with the operators will be held.

Treasurer Bliss Will Testify.

New York, Nov. 29.—Cornelius N. Bliss, treasurer of the Republican national committee, is likely, it is said, to be called by the insurance investigating commission to testify regarding campaign contributions by the big companies. The investigating committee has not decided yet just when they will call Mr. Bliss, but most of the members are said to feel that he should be asked to tell what moneys he received from the insurance companies. Following the declaration of Senator Platt that these contributions were made, the committee has heard from all quarters demands that this particular question be probed to the bottom. Mr. Bliss would make no statement last night regarding his receiving insurance money, campaign committee or his testifying before the investigators.

Killed in a Pitched Battle.

Nasaville, Nov. 29—A dispatch from Jasper, Tenn., says a pitched battle occurred in a cove known as "The Gizzard," between a family named Hendricks and a sheriff's posse. The shooting occudred at the house of a woman named Plummer. When the smoke had cleared it was found that one of the Hendricks was dead and Mrs. Plummer badly hurt. The Hendricks went to the house after Samuel Plummer, accused of assaulting the wife of one of the Hendricks.

Wanted to Lynch Missouri Miner.

Mexico, Mo., Nov. 29.—Ed J. Bailey, a miner, who shot and killed Jay Lawder, secretary of the Lawler Peterson Coal company, yesterday was taken out of the county jail last night to avoid a mob which was organizing down town. Sheriff Johnson was warned that an attempt would be made to hang Bailey.

KOREANS PROTEST AGAINST JAPANESE

Claim That Japs Used Force To Obtain Treaty.

EMPEROR TREATED VIOLENTLY

The Korean Minister to France is En-route to Washington to Lay Protest Before American Government—The French Officials Remain Silent.

Paris, Nov. 28.—The Korean minister, Min Yueng Tchan will sail for New York tomorrow on the Kaiser Wilhelm II for the purpose of presenting a protest at Washington against Japan's assuming authority over Korea.

The minister says the protest emanates from the emperor of Korea, who cabled instructions to present a protest to France and the United atStes.

The American government has already been advised of Minister Min's coming visit.

No details of the protest are available. The foreign office here has received a protest from Minister Min, but has not taken any action.

The minister's advices say that Japan's assumption of power was accompanied by a display of armed force, and that the emperor was treated violently.

Inquiry in French governmental quarters indicates that there is no intention to act upon the Korean protest. The officials point out that several protests from the same quarter have been submitted during the last few months.

The official view is that Japan's assumption of the control of Korea was inevitable, and that therefore while the methods may have been harsh, yet the situation does not warrant the powers in intervening, since China and Russia, which are principally certain, have given up by the treaties of Shimonseki and Portsmouth the right to intervene. Consequently the French legation at Seoul will probably be withdrawn when the French minister at Tokio is raised to the rank of ambassador.

Railroad Property in Georgia.

Atlanta, Nov 29.—Comptroller General Wright and his assistants are now engaged on the heavy task of sending out statements to corporations, counties and cities, of the taxes due on corporations in the state. Comptroller General Wright estimates that the total of assessed corporation property this year amounts to $82,000,000, an increase of $9,000,000 over last year. Of this property, most is that of railroads, the income in taxes from them amounting to $401,800 on $69,000,000 of property. Other corporations assessed are telegraph and telephone companies, street railways and power plants. In addition to the statements mailed to them, other statements are mailed also to each county and city, showing the taxes due them from particular corporations.

Mutiny on Board Ship.

Los Angeles, Cal., Nov. 29.—The Times this morning prints a story saying that with a rebellious crew huddled in their quarters in the forecastle and the crew officer standing guard, the bark Haddonhall lies in the harbor of San Pedro, a state of mutiny aboard. While the ship lies helpless under the sullen inactivity of its crew. Its commander, Captain Iskin, is in the city to invoke the aid of the authorities to assist him in getting to sea again. The captain under instructions from the owners in London is for taking his ship to Vancouver for another load of lumber. The crew is for staying in Los Angeles.

Severe Storm on English Coast.

London, Nov 29.—Great aggregate damage was done to the coast towns of Great Britain by last night's storm. Many small vessels were driven ashore, but thus far only a few lives are reported lost. During the night huge waves swept the sea fronts of many favorite resorts. Sea walls and promenades were washed out and houses and hotels along the sea fronts were flooded. In some cases houses collapsed.

TO CHANGE INAUGURATION DAY.

Committee of Governors and Civilians Will Meet in Washington.

Washington, Nov. 29.—Th eNational committee on the proposed change of inauguration day, composed of fifteen citizens of Washington and forty-four governors of states and territories, will meet here this afternoon on the best manner of presenting the matter to congresa.

The governors generally have sent their views in writing. The main purpose of the meeting is to discuss the questions, first what day shall be selected for inauguration day by congress, and specifically what choice should be made between the 30th of April, the day named in Senator Hoar's resolution and second, whether any recomendation shall be made to congress as to a change in the day of assembling. Among the governors who have indicated a willingness to serve on the committee and who have sent their views in writing are:

Jelks, of Alabama; Broward, of Florida; Terrell, of Georgia; Deneen, of Illinois; Hanley, of Indiana; Beckham, of Kentucky; Blanchard, of Louisiana; Warfield, of Maryland; Glenn, of North Carolina; Herrick, of Ohio; Ferguson, of Oklahoma; Wintarop, of Porto Rico; Cox, of Tennessee; Montague, of Virginia; Dawson, of West Virginia.

LOWER RATES O NORGANCES.

California Can Now Compete With Florida and Other Places.

San Francisco, Nov. 29.—California orange growers and shippers will in the future be able to compete with the growers of Florida, Cuba and the Mediterranean in London, and on the continent of Europe as eastern connections of the Southern Pacific and Santa Fe railroad lines, including Atlantic steamship lines, have joined those two railroads in making a $1 per 100 pound rate on orange shipments from California to London and other points in Europe. The new rates go into effect next Thursday.

To all points in this country outside of California orange shippers are charged $1.25 per 100 pounds.

The California orange crop for the season just opened will, in the opinion of both growers and railroad traffic officals, yeld 38,000 car loads for shipment east of the Rocky mountains.

Chinese Boycott Called Off.

San Francisco, Nov. 29.—Fearing that the wrath of the God of Waters would be visited on them, the Chinese of Shanghai and its vicinity have, it is said, given up the boycotting of American goods. This change of sentiment was caused by the destruction by water of a large quantity of goods which were stored in the basements of the business houses in Chinese ports. They had been placed there by the Chinese merchants when the boycott was first instituted. This occurred during the inundation of that portion of Chinese coast during a typhoon and tidal waves of a month ago.

Many Injured in Wreck.

New York, Nov. 29.—Nearly a score of persons were slightly injured today when a crowded passenger train on the Long Island railroad crashed into a section of a freight train which had broken in two a few minutes before at Newtown, L. I. The passengers, many of whom were standing in the aisles, were thrown to the floor against seats with great violence. The fire which immediately broke out among the wrecked freght cars caused a panic and threatened the passenger train. Some of the passengers assisted the trainmen in fighting the flames.

Railway Buys Big Ship Yard.

Richmond, Va., Nov. 29.—The Southern railway has made an offer acceptable to the bondholders' committee for the Trigg ship yard property here, embracing all of the real estate of the shipbuilding company except the dock. The offer, which has been virtually accepted, provides for the transfer of the lands of the Trigg ship yard, embracing about 20 acres. The intention of the railroad company is understood to be the erection of a large freight depot and several warehouses along the property, and also to offer for sale a number of sites for private enterprises.

TERRIFIC BLIZZARD RAGES IN THE WEST

Superior, Wisconsin, In Grasp of Snow and Ice.

BUSINESS IS AT A STANDSTILL

Street Car System Is Paralyzed. Trains Cannot Run on Account of the Snowdrifts—Worst Storm in that Section Since 1872.

Superior, Wis., Nov. 29.—The city of Superior and Lake Superior have been lashed by a furious wind since early last night.

A blinding wet snow accompanied the 60-mile hurricane with the result that drifts 4 to 6 feet in height obstructed the principal streets. The citizens in their homes are literally snowed under.

The street car system is stalled.

Wires are down in many directions.

The steamer Crescent City is ashore near Duluth.

Last night and today's storm marks the first really fierce blizzard since 1872, and if anything, this storm was even worse than that memorable time.

Railroad traffic is either entirely suspended or moving erratically and snow plows have been started from the division points. The storm continues with no sign of abatement.

NINE KILLED BY EXPLOSION.

Many Others Injured by Accident in Powder Mill.

Emporium, Pa., Nov. 29.—An explosion in the mixing house and in one of the packing houses at the Keystone powder works destroyed the entire works, killing nine men and injuring several others.

The dead:

James Boyce, John Butler, aJmes Campbell, John Hamilton, Thomas Welsh, James Murphy, Frank Harrington, John Bossie and William Sprung.

Joseph Gainey, hip and leg broken, probably fatally hurt.

Walter Palmer, face cut.

Edward Barker, cut in back by flying glass.

George Van Wert, superintendent of the works, cut about the face and hands.

The body of Sprung was the only one of the dead recovered. The top of his head and one leg were blown off. The searchers of the ruins are picking up the other bodies in small pieces.

No damage was done in the town.

GOV. DAVIS IN DIFFICULTY.

Arkansas' Chief Executive Has Fight in a Hotel Room.

Little Rock, Ark., Nov. 29.—Charles Jacobson, private secretary to Governor Davis, has given out a statement here to the effect that Governor Davis had wired him from Fayetteville, stating that former Congressman Hugh Dinsmore and Jack Walker assaulted him in his room at a hotel with drawn revolvers, and that he (the governor) was struck over the head with a revolver.

The governor, in turn, according to the statement, struck Dinsmore over the head with a large cane. Other reports about the affair are current in Little Rock. It is said the governor had made some remarks which Dinsmore resented. The latter is regarded as a supporter of United States Senator Berry, who is a candidate for re-election and for which office Governor Davis is also a candidate.

Negro Kills White Man.

Montezuma, Ga., Nov. 29.—W. P. Deal, a respected white Farmer of Macon county, was killed. He was shot through the heart. Mr. Deal had a warrant for the arrest of Williams, who had slipped the county some months previous. He had recently returned and when Mr. Deal called to see him at his home the negro came to the door and emptied a load of shot into the body of Mr. Deal, who dropped to the ground dead. The whole community is aroused over the crime, and a posse is in search of the murderer. The murdered man leaves a wife and [illegible]

The live stock exhibit at the Florida State Fair, upon which awards have been made, is one of the best ever seen in the South, and went to show the rapid advancement Florida has made in this important industry within the past few years. As will be noted, the Alachua county exhibit made a good showing, prizes having been awarded to the Spring Park Stock Farm Company and to Burrell Wiggins of Hague. Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Silver Service for Cruiser.

Philadelphia, Nov. 29.—In the presence of many state and city officials and officers of the United States navy now at the League Island navay yard Governor Pennypacker on behalf of the state today presented to the armored cruiser Pennsylvania, a handsome silver service. Two Lives Lost in Fire.

New Orleans, Nov. 29.—Two lives were lost in the burning of a double story residence at 1917 Euterpe street early today. Seven members of the Klein and Tipps family occupied the three second story bedrooms, and were fast asleep when passersby discovered the building in flames on the first floor. Pistol shots aroused some of the inmates. The stairway, however, had burned away and they were compelled to jump for their lives. Before they could be reached Mrs. Mary Tipps, an aged woman, and John Klein, a lad of 10, were suffocated.

Negro Lynched in Louisiana.

New Orleans, Nov. 29.—Mosie Williams, a negro, was lynched at Tangipahoa, La., for connection with the attempted assault upon Mrs. George, an aged white farmer's wife, a week ago. He is said to have confessed having kept watch for the principal in the affair, under compulsion. A deputy sheriff was taking him in a buggy to confront a witness, and a crowd took him away, drove him to a negro church in the woods, and made an example of him.

Mrs. Rogers Refused New Trial.

Washington, Nov. 28.—The supreme court of the United States today affirmed the decision of the United States district court of Vermont in the case of Mrs. Mary Bell Rogers who is under sentence of death in Vermont for the murder of her husband. The affect of the decision will be again to place the responsibility of dealing with the case in the hands of the state authorities and if in the meantime neither the governor nor the state courts take action in Mrs. Rogers' behalf, her execution must occur on the day set which is Dev. 8 next. The court held, in effect, that it was without jurisdiction in all the points raised.

"I Thank the Lord!"

To Amend Merchant Marine Bill.

Washington, Nov. 29.—The members of the Merchant Marine commission now in the city had a meeting today at the rooms of Senator Gallinger, the chairman, for the purpose of considering amendments to the merchant marine bill presented last session and outlining a report which will be made to congress at the coming session. Very few amendments will be made to the bill, and these are of no great importance.

To Cure a Cold in One Day

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

A Riot of Ink.

Canon Nicholl used to tell how on one occasion he had visited the famous house of the Thrales in that suburb of London where Dr. Johnson was at home. "Johnson," said the canon in recalling the visit, "had occupied two rooms, and these were left as he last used them. The sight was an extraordinary one, for ink was splashed all over the floor and even on the walls. It was one of the doctor's habits to dip his pen in ink and then shake it."

The Natural Effect.

Father—From my observation of him last night I came to the conclusion that young man of yours was rather wild. Daughter—Of course. It was your constant observation that made him wild. He wanted you to go upstairs and leave us alone.—Philadelphia Ledger.

Doubled.

Mabel—Is she as happy as when she lived with her husband. Molly—Twice as happy. He used to allow her only $9 a week, and now he has to pay her $18 a week alimony.—Kansas City Independent.

You can get a very good idea of "natural selection" in its practical workings by viewing a celery glass after it has been once round the table.

WINTER ECZEMA SKIN HARD AND DRY

Some skin diseases are active in Summer, while others wait until cold weather to manifest themselves. Winter Eczema sleeps in the system through the long hot months, and gives no sign of its presence; but at the coming of Winter the trouble asserts itself and it becomes one of the most painful and distressing of all skin diseases. The blood is filled with poisonous acids which seem to be excited by the cold; and as these are thrown off through the pores and glands, the skin cracks and bleeds, the flesh becomes hot and feverish and the itching intense. The natural oils which keep the skin soft and pliant are dried up by the cold, bleak winds, causing it to become hard and dry, giving it that shiny, leathery appearance, characteristic of the disease. The head, face, hands and feet are the usual points of attack, though other parts of the body may be affected. So painful and distressing is the trouble that the sufferer constantly "doctors" and treats it trying to get relief. Soothing washes, medicated ointments and salves are used, but aside from giving temporary relief they do no good. The cause is poisonous acids in the blood, and these must be removed before a cure can be effected. The only cure for Winter Eczema is S. S. S., the greatest of all blood purifiers. It cleanses the entire blood supply of the acrid poisons and sends a fresh, healthy stream to the diseased skin, healing and softening it and curing the painful, itching eruptions. S. S. S. enters the blood and purifies it of all waste and foreign matter, and cures Winter Eczema—or Tetter as it is sometimes called—safely as well as surely; besides it does not contain any harmful mineral to derange or damage any part of the system. FIRST SOLID CAR ALACHUA LETTUCE

Shipped From Gainesville Seaboard Tuesday Night.

FIRST SOLID CAR FROM STATE

Can be Learned—Shipment Up From Growers of Rocky and Gainesville Sections, and Consigned to New York.

A solid carload of lettuce to be shipped from this county, and possibly the State, for the season, went forward from Gainesville over the Seaboard Air Line Wednesday. The consignment was by the Armour Car Lines and comprised three hundred and eighty-four baskets of as fine lettuce as was ever grown in the State. The car was consigned to New York, and was made up from the farms of the Gainesville and Rocky Point sections.

The growers state that the crop this season of lettuce, peas and beans, while not so large as last year, will be far superior in quality, and so far have demonstrated better carrying qualities. The growers are anticipating good returns from all shipments from this section.

MR. HENDERSON PLEASED.

Says Industrial Edition of The Sun Finest Ever Published Here.

T. P. Henderson, the nurseryman of Arno, is evidently well pleased with the Industrial Editon of The Sun, as he orders a dozen copies sent to his address, and concludes with the statement that the issue does credit to The Sun and to Alachua county, and he believes will be instrumental in inducing many settlers to this section.

Mr. Henderson owns a large peach orchard at Arno, and is regarded as one of the most thoroughly posted men on peach growing in the South, as he has made it a life-long study. It was through his courtesy that the article on peach culture was published in the Industrial Edition, he being the author of the same.

CONNECTED WITH HAMPTON.

Southern Bell Telephone Company Now Offers a Service.

The long distance line of the Southern Bell Telephone Company, which has been in construction for the past few months, was Wednesday morning connected with Hampton and several messages were transmitted between Gainesville and that point. The Sun representative had the pleasure of a moment's conversation with Marshal A. A. Darden at Hampton and found the service to be up-to-date in every way.

Local Manager Goodwin stated Wednesday that the probabilities are that the line will be connected at Starke within three or four days.

HE SPOKE OF LUTHER.

Pointed And Eloquent Lecture at Second Advent Church.

The Live Oak Daily Democrat of Tuesday, November 28th, has the following:

"The lecture on Dr. Martin Luther at the Advent church on Sunday night by Dr. F. A. Holtzhauzen from Wittenberg, Germany, was well attended and listened to with rapt attention from start to finish.

"The chief aim of this lecture is to impress upon the old and young the greatness, the glory and the power of individual soul liberty. It was pointed out as the keynote of all true and ever increasing progress of the ages past, and the Magna Charter from every form of bondage individual and national.

"The lecturer declared Moses, Jesus and Luther to be the chief emancipators of the human race. He made the Son of Mary and of God the center of liberating power.

"This lecture cannot fail to be productive of great service wherever it may be given, for it brings information, illumination and inspiration to all who have the privilege of hearing it."

Death at Wacahoota.

Mrs. Claudia Beach of South Carolina died at the home of her sister, Mrs. R. S. Bradley, Wacahoota, Tuesday morning, and was buried in the Baptist church cemetery near that place Tuesday afternoon, Rev. Dr. Waddell, the Presbyterian minister of Archer, officiating.

Deceased was born at Old Newnansville in 1849, consequently was fifty-six years of age. She was married near Newnansville, afterwards moving to South Carolina, where she has since resided up to a few months ago, when ill health compelled her to return to Florida. At the time of her death she was visiting Mr. Bradley.

Deceased was also a sister of S. L. Blanton of Forrest Grove and J. W. Exley of Newberry, and both brothers were at her bedside when the end came.

NEWS OF CITY AND COUNTY CONDENSED

Route Agent J. H. Higbee of the Southern Express Company, with headquarters at Waldo, was at the Brown House yesterday. Mr. Higbee, who has charge of the Seaboard Air Line and the Gainesville and Gulf, states that on the former road the orange movement at this time is very heavy and that vegetables are moving well over the Gainesville and Gulf.

After a couple of days spent in the city with his friend, Hon. James H. Tillman of Edgefield, S. C., Mr. W. A. McLenna returned to his home at Waldo yesterday. These gentlemen are natives of the same State, were reared in the same vicinity and have been friends for many years. Naturally their meeting was an agreeable and pleasant one and it was interesting to mutual friends to hear them talk over "old times." Colonel Tillman declares the longer he remains in Gainesville the more he is impressed, and it has been hinted that it would not require much persuasion to induce him to become a citizen here. He would be gladly welcomed.

The Department of Travel, of which Mr. Taft is secretary, will no doubt publish a book in the near future.

Mr. McCurdy has not resigned the presidency of the Mutual Life. He has only become resigned to his office.

Mrs. Chadwick says there are others as guilty as she is, and there is little doubt that the poor creature is quite right in her statement.

The people of Minnesota have got their wheat harvested and are now beginning to harvest the finest crop of early blizzards ever seen in that section.

Assistant United States Treasurer Lieb at Philadelphia has been removed by President Roosevelt for "evading the provisions of the civil service law."

For the many blessings we have enjoyed the past year and our freedom from any calamity or misfortune of a serious nature, Gainesville should be most truly thankful.

The Recorder's Court in Pensacola is making it very warm for the people who use profane and obscene language on the streets of that city, and the average sentence has been raised for female "cussers" from 30 to 40 days in the stone yard.

The Supreme Court of the United States has refused to interfere in the case of Mrs. Bell Rogers of Vermont, twice convicted of murder of her husband and sentenced to be hung, and it is thought that nothing can save her from being executed on December 8th.

The Tampa Fair, known as the Florida Mid-Winter State Fair, closes today one of the greatest exhibitions of the products of this State ever before seen, and the next fair will be still greater, as there is no State in the Union that is advancing more rapidly than Florida.

Beginning December 4th The Perry Citizen will issue a daily paper on a small scale until January 1st. This will be done to let the people of that enterprising city see how nice it is to have a daily, and also to give the publishers some idea of the difference in getting out a paper six days in a week and once a week.

Many States of the South have their colonels and majors without number who are good fellows and we are glad they are with us; but there is a higher and more useful officer that is frequently found in Florida who counts more for all the rest, and that is "General Activity." He is the man most needed in every live town and he can be found all over our busy State.

Many people who come from the North to spend their winters in the Sunny South would prefer to own a small farm and reside a few miles from the city. If we only had good roads leading to these farms, there would be no trouble experienced in selling such lands at a good price. Here is one argument in favor of good roads that should be considered by owners of lands.

INDUSTRIAL EXPOSITION.

The Manufacturers' Pure Food and Industrial Exposition, which will be held at Jacksonville from January 4th to 18th inclusive, will be the largest exposition ever held in Florida.

The mammoth building is being erected on the old St. James lot, across the street from the Windsor Hotel, and will be when completed a magnificent structure and the largest building of its kind in the State.

Over 7,000 incandescent lights, besides between 250 and 300 arc lights, will be used to light the building, both inside and out. The entrance will be made of massive pillars on the colonial style with the stucco effect and hundreds of colored incandescent lights will be used, and the entire electrical effect will be the grandest display ever seen in our State.

The building will contain 317 windows and four entrances, besides numerous exits, and every precaution is being taken by the management to take care of the thousands of visitors who will visit the Exposition. A large corps of special policemen, firemen and watchmen will be employed.

The automobile exhibits will be the largest and best ever seen in the South. Racing machines, tally-hos, delivery wagons, touring cars, besides a handsome line of imported automobile supplies will be seen.

Runkle Brothers of New York will give away 25 pounds of chocolate candy daily. The Borden Condensed Milk Company will make their famous milk in their booth. The Welch Grape Juice Company will give away their world-famous drink, grape juice. The Cable Piano Company will give a continuous performance at their large booth. A miniature house erected by the Florida Pressed Brick Company of all their fancy brick. All the breakfast foods and new food stuffs will be exhibited. The Machinery Hall will be especially interesting. The Maleby Company of Atlanta have secured an enormous space and will have a sawmill in full operation. And last, but not least, will be the grand band and the wonderful hippodrome attractions. The best carnival attractions will be secured and the shows will be only of the very best class.

You can't afford to miss the Exposition, as it will not only be very instructive, but it will also have all the fun and merry-making features that will help to make your visit both profitable and pleasant. Remember the dates, January 4th to 18th, inclusive.

COTTON GROWERS WILL WIN.

"Everything is moving along with entire satisfaction and it looks as if we were going to win in our effort to tie up the most of the balance of the crop." Thus writes President Harvie Jordan of the Southern Cotton Association to a leading spot man of New Orleans, after some campaigning for the purpose of tieing up 3,000,000 bales of cotton and inducing the growers to hold for 15 cents. The upward tendency of the staple since then, augmented by the ginners' report and the fact that a powerful speculative element, acting independently, is conducive to the belief that the Southern Cotton Association will accomplish its aim.

Mr. Jordan has made it perfectly and forcefully clear, however, that the speculative side has nothing whatever to do with the movement, further than natural coincidence and the president of the Southern Cotton Growers' Association declares that neither he nor the association will have anything to do with the speculators.

Mr. Jordan states that the association will immediately send out blank pledges to all who write for them to Atlanta headquarters.

Norway has at last showed her hand. All they have is one king. She may have something up her sleeve.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

FLORIDA'S PROSPERITY.

Everyone should pay particular attention to the bulletin on the manufacturing interests of Florida, issued Saturday by the census bureau of the Department of Commerce and Labor, says The Tampa Tribune. This bulletin, which is the result of expense and labor by the government in the collection of statistics, places the value of the manufactured products of the State for last year as $50,241,078, an increase since 1900 of 47 per cent.

Just think of that!

It means that the people of Florida have not been content to remain idle and allow other States to leave her behind. It means that the enterprising citizens of a State that is plethoric with natural possibilities have taken advantage of the conditions and to use a vulgarism of the day, "made good."

According to this official bulletin, there are 1,410 manufacturing establishments in the State, capitalized at $32,958,482. These establishments employ 41,961 wage-earners, who were paid last year $15,736,222.

The product of the principal articles manufactured was last year as follows:

Tobacco, cigars and cigarettes, $16,784,276; lumber, $12,592,105; turpentine and rosin, $9,851,173.

The bulletin does not touch upon the other great industry, the raising of citrus fruits. But there is enough in the figures given out to show that Florida is forging to the front every year.

The wage-earners of Florida are well paid. The workmen should not lose track of the fact that employers have their money invested in such a way that affords them employment.

We are in recipt of frequent letters from parties inquiring about real estate in Alachua county, and some of these letters are from men who are anxious to know in regard to the prices of real estate in the city and farming lands; but as we do not have the time to write letters to all of them and pay postage on the same, we simply send copies of The Sun, so they can see who are the men who have property for sale. There may be others who have property they would like to dispose of, but as they do not make the fact known we refrain from mentioning their names, lest we might offend them. If you want to take advantage of these inquiries, put a small advertisement in The Sun.

The Punta Gorda Herald says that Mr. Flagler has played the mischief. He has picked up a regiment of Bowery bums to work on the extension of his railroad, with the result that they have simply "worked" him for a free trip to Florida.

Will Not Fight Gould's Interest.

New York, Nov. 29.—Joseph Ramsey, Jr., formerly president of the Wabash railroad, said yesterday that he did not think it likely that he would take any legal action in regard to the result of the recent annual meeting of the Wabash securities holders at which he failed of election as a director of the road. Mrs. Rasey has taken offices at 100 Broadway and is engaged in settling the affairs of the Little Kanawha syndicate. Asked as to whether he would make any statement concerning his plans he said that so far as the inquiry referred to his entering the service of some other road, he did not think he would consider anything of the kind at present.

Baptists to Meet in Chattanooga.

Louisville, Ky., Nov. 29.—At a meeting of the committee appointed at the last convention of the Southern Baptists chuch to select the time and place for holding the convention of 1906, it was decided that Chattanooga, Tenn., should entertain the convention early in May. The exact dates will be announced in a day or two. The committee, of which Dr. T. T. Eaton, of Louisville, is chairman, was some time arriving at a decision, as the claims of several cities were strongly pressed.

Twenty-Three Students Suspended.

Watertown, N. Y., Nov. 29.—Twenty-three students of St. Lawrence university left Canton yesterday, having been suspended by the faculty for participation in recent disturbances. This practically wipes out the Beta fraternity of the university, nearly all the suspended students being members, and the faculty has ordered the club house closed. Many of the students will be prevented from graduation.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

Governor Folk Greatly Incensed.

Jefferson City, Mo, Nov. 29.—Governor Folk is greatly incensed to learn that James F. Hale, the prisoner who was removed to Fort Leavenworth prison last Friday is a stockholder in the Central Broom Manufacturing company, a corporation doing business in the penitentiary. The stock was bought by Hale about two weeks before he was removed to Ft. Leavenworth with money he had carefully accumulated by hoarding "tips" that were given him as a prisoner barber. Hale was sentenced by the federal court of Indian Territory for 99 years for murder and has served six years.

Canadian Duties Are Increased.

Brantford, Ont., Nov. 29.—The tariff commission met here yesterday. Among the increased duties asked for by the various interests were these: Low grade glue, 3 cents per pound; cigar box woods, 35 per cent; paper packages, 10c per pound. Manufacturers of stocking asked for a 20 per cent reduction in the duty on yarns.

Treated Badly by Russians.

Victoria, B. C., Nov. 28.—Charles Grant and Robert Findlay, Victoria sealers, who were captured by the Russian cruiser Gromoboi, which sank the Japanese sealer Hokusei on which they were engaged as sealers, reached home last night after being in the Russian prison at Medvid, Novogorod for months. They say the Russians treated them badly, stealing all their effects. United States Consul Smith, of Moscow, visited them twice while in prison and it was through his instrumentality the news of their predicament reached their relatives.

Independent 'Phoes Are Barred.

Columbus, O., Nov. 29.—By a decision of the supreme court today the Independent Telephone companies are shut of the city of Cincinnati, as they always have been up to this time. The case decided today was that of the Queen City Telephone company against the city of Cincinnati. This company attempted to secure a franchise through the probate court, the city council failing to act in the matter. The supreme court now affirms the judgement of the circuit court which was against the Queen City Telephone company.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Keep Your Head Clear

And your stomach free from Indigestion if you would be happy with your family and your fellowman.

The surest thing on earth to get a man's system "out of whack" is heavy, sooky bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

METHODIST CONFERENCE ENDED.

Annual Meeting of Preachers Adjourns After Several Days' Session.

Newnan, Ga., Nov. 29.—The work of the annual session of the North Georgia conference of the Methodist Episcopal church, south, which convened here last Wednesday, came to a close Monday when the appointments for the ensuing year were announced.

The conference will meet at Milledgeville next year. Invitations were extended by the churches at Milledgeville and Thomson.

The principal feature of the last day's session, outside the routine closing work, was the adoption of resolutions introduced by Dr. J. E. Dickey, president of Emory college, reaffirming the belief of the members of the conference in the 25 articles of faith as set forth in the book of discipline.

Resolutions expressive of the faith imposed in Bishop Duncan by the members of the conference, and their love for him, were also adopted. The resolutions set forth the admiration felt for Bishop Duncan and commended him for his impartiality.

Resolutions were also passed expressing the thanks of the conference to W. S. Witham, of Atlanta, for his gift of $5,000 to the loan fund of LaGrange Female college, to be used for the aid of needy girls.

Alabama Conference Adjourns.

Athens, Ala., Nov. 29.—The North Alabama conference has adjourned. C. B. Galloway, who has been presiding, pronounces it the most successful conference ever held in the state. The pastoral appointments for the coming year were announced, and among the transfers are the following: S. J. Smith, to Louisiana conference; J. J. Cross, to the Indian Mission conference; A. E. Smith, to Texas conference; O. G. Haliburton, to Louisiana conference.

Treaty Between Germany and Russia.

New York, Nov. 29.—The Herald prints the following cable dispatch from Buenos Ayres, Argentina: "The Prensa published Sunday a fac simile of a secret treaty between Germany and Russia ratified at Versailles, on March 3, 1871, and signed by Bismarck and Westmann. Mr. Rouivier to whom it was submitted said that the document seems to be authentic, though nobody knew of its existence. It probably is the scheme of an alliance negotiated at Versailles between Bismarck and the Russian agent, Westmann. It bears the seal of the secret chancellory of the Russian foreign office."

Son Lost Mother.

"For the past five years, however, on the slightest sign of a cough or cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Federal Attorney Is Suspended.

Birmingham, Ala., Nov. 29.—Julius Sternbeldt, assistant United States district attorney, with headquarters at Montgomery, is out in a strenuous interview in which he denies that he has been removed from office on account of alleged irregularities in accounts in peonage cases. The Washington correspondents of several Alabama newspapers, in response to telegraph instructions, have wired back that Stern feldt is not removed, but is only suspended. The suspension is regarded as an exceedingly grave one, however

STANTON'S KIND HEART.

Two Incidents That Show His Tenderness and Consideration.

Edwin M. Stanton, secretary of war during and after the civil war, impressed many who came to him with appeals for aid as a stern and even heartless man. He was frequently contrasted with President Lincoln as his very opposite in mercy and gentleness. Yet incidents described to his latest biographer by men who knew him well show that he sometimes suffered as bitterly as those whose requests he felt compelled to refuse.

"I went to the war office after 10 o'clock one night to consult Mr. Stanton," says a former clerk. "I found the mother, wife and children of a soldier who had been condemned to be shot as a deserter on their knees before him, pleading for the life of their loved one. He listened, standing, in cold and austere silence. At the end of their heartbreaking sobs and prayers he answered briefly that the man must die. The crushed and despairing little family left, and Mr. Stanton turned, apparently unmoved, and walked into his private room.

"My own heart was wrung with anguish. It seemed to me that Mr. Stanton must be a demon, the very incarnation of cruelty and tyranny.

"I was so dazed that, forgetting myself, I followed him into his office without rapping. I found him leaning over a desk, his face buried in his hands and his heavy frame shaken with sobs.

"'God help me to do my duty! God help me to do my duty!' he was repeating in a low wail of anguish that I shall never forget.

"I quickly withdrew, but not until I had seen a great light. I have loved, almost reverenced, Edwin M. Stanton ever since. His own heart was perhaps suffering more intense agony than the hearts of his petitioners, but he was compelled to steel his outward face for the bloody duties of war, while within his soul was warm with sympathy and sorrow."

One cannot help hoping that this deserter may have been one of those whose lives President Lincoln spared by overruling the decision of his secretary of war.

A more cheerful view of the great secretary is given by a fellow lawyer who knew him before the war.

"He was traveling by steamer on the Ohio to Pittsburg when he saw a man on the forward deck with a broken leg.

"'Why is that sufferer not attended to?' he demanded of the captain, who replied that the man lived in Pittsburg, then nearly a hundred miles ahead, and would receive attention there.

"From a carpenter's chest Mr. Stanton promptly secured a saw and a hatchet with which to cut splints. Taking a sheet from a stateroom he set and bandaged the fracture. He then brought vinegar and water from the cook's room with which to steep the swollen parts and all the way to Pittsburg sat by the side of the injured man, applying the bath. When the boat reached Pittsburg he hired a carriage and took the man home."

Fashions In Beards.

English history is rich in examples of the way in which fashion in beards has changed from time to time. The spies sent out by Harold reported that the Norman invaders "did almost seem to be priests, because they had all their face and both lips shaven," which is confirmed in the Bayeux tapestry. It was to distinguish themselves from their hated conquerors that the English wore their hair long. Stow speaks of long hair as well as beards in Henry I.'s reign, "Men contended with women in their long haires, and when this decayed through old age they knit about their heads certain rolls and braidings of false hair." The monk Wulstan described the practice of wearing the hair long as "immoral, criminal and beastly." When one of his long haired flock knelt for his blessing, it is said that he would whip out a knife and cut off as many of the tresses that lay under his consecrating hand as he could manage in the rather limited time at his disposal.

No Poison in Chamberlain's Cough Remedy.

From Napier (New Zealand) Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all druggists.

HARD TRAVELING.

Country Life in Italy In the Days of the Renaissance.

Travelers in old time Italy had a sorry time of it. Says a critic: "The frescoes of Benozzo Gozzoli in the Riccardi palace and also those in the Campo Santo of Pisa bring vividly before us another phase of country life, that of travel in the days of the renaissance. As we watch the long cavalcade which winds round the steep mountain path we are carried back to the time when wheeled carriages were almost unknown, for, indeed, there were but few roads on which they would have been possible. The only highway between one city and another was often little more than a rough bridle path, a quagmire of mud in winter, and, passing through a tangled thicket here and there, a hiding place for outlaws and wild beasts. There was no choice but to ride on horseback, save on state occasions, when a great lady might be carried on a litter well padded with feather mattresses covered with crimson satin. All goods of every kind were conveyed on the backs of horses or baggage mules.

"We have many accounts of travel in those days, for a journey was a serious matter, not to be lightly undertaken or easily forgotten. Thus, when the Duchess Beatrice of Milan went on a diplomatic mission to Venice and wished to make a good impression on the senate we are told that she had fifty mules in her train, laden with her costly dresses. Of another princess, Bianca Sforza, on her way to marry the Emperor Maximilian, we have a pitiful account of her journey, from the pen of her secretary. She started from Milan at the end of November, to be nearly shipwrecked in a sudden storm on the Lake of Como; then, with endless hardships of tempestuous, wintry weather, she rode across that 'fearful cruel mountain' the Stelvio pass, one hapless lady in waiting having to be left behind at Gravedona! Not until Christmas eve did Bianca at last reach Innsbruck.

"Again, we have the famous journey of Lucrezia Borgia across Italy, from Rome to Ferrara, with an immense retinue of nearly 1,000 persons, which took twenty-five days in the depth of winter. If we had chanced to meet them on the way, with their splendid dresses and gaudily caparisoned horses, with dwarfs and jesters to beguile the way and a company of trumpeters, drums and hautboys to make martial music, we might have mistaken it for a traveling circus thus noisily parading through the land."

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years 'ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J W. McCollum & Co.

London and New York.

The contrast between society in London and New York is not so great as many suppose. There are more low dresses and diamond tiaras in London and more smart, tidy women in New York; more beards in London and more clean shaven chins in Manhattan. There are larger hotels in New York and bigger shops; there are red pillar boxes in London and smaller gray ones in the city on the island. But these things are small details. In the main both cities are much alike, and the men and women behave in much the same way. We have no streets to compare with Fifth avenue, and they have no park to compare with Regent's park and no Westminster abbey! But we drive out and dine out just the same, we eat and think and dress and read just the same, or anyway so much alike we seem like one big family party, which is just as it should be.—London Black and White.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

TERRIFIC BLIZZARD RAGES IN THE WEST

Superior, Wisconsin, In Grasp of Snow and Ice.

BUSINESS IS AT A STANDSTILL

Street Car System Is Paralyzed. Trains Cannot Run on Account of the Snowdrifts—Worst Storm in that Section Since 1872.

Superior, Wis., Nov. 29—The city of Superior and Lake Superior have been lashed by a furious wind since early last night.

A blinding wet snow accompanied the 60-mile hurricane with the result that drifts 4 to 6 feet in height obstructed the principal streets. The citizens in their homes are literally snowed under.

The street car system is stalled.

Wires are down in many directions.

The steamer Crescent City is ashore near Duluth.

Last night and today's storm marks the first really fierce blizzard since 1872, and if anything, this storm was even worse than that memorable time.

Railroad traffic is either entirely suspended or moving erratically and snow plows have been started from the division points. The storm continues with no sign of abatement.

NINE KILLED BY EXPLOSION.

Many Others Injured by Accident in Powder Mill.

Emporium, Pa., Nov. 29.—An explosion in the mixing house and in one of the packing houses at the Keystone powder works destroyed the entire works, killing nine men and injuring several others.

The dead:

James Boyce, John Butler, aJmes Campbell, John Hamilton, Thomas Welsh, James Murphy, Frank Harrington, John Bossie and William Sprung.

Joseph Gainey, hip and leg broken, probably fatally hurt.

Walter Palmer, face cut.

Edward Barker, cut in back by flying glass.

George Van Wert, superintendent of the works, cut about the face and hands.

The body of Sprung was the only one of the dead recovered. The top of his head and one leg were blown off. The searchers of the ruins are picking up the other bodies in small pieces.

No damage was done in the town.

GOV. DAVIS IN DIFFICULTY.

Arkansas' Chief Executive Has Fight in a Hotel Room.

Little Rock, Ark., Nov. 29.—Charles Jacobson, private secretary to Governor Davis, has given out a statement here to the effect that Governor Davis had wired him from Fayetteville, stating that former Congressman Hugh Dinsmore and Jack Walker assaulted him in his room at a hotel with drawn revolvers, and that he (the governor) was struck over the head with a revolver.

The governor, in turn, according to the statement, struck Dinsmore over the head with a large cane. Other reports about the affair are current in Little Rock. It is said the governor had made some remarks which Dinsmore resented. The latter is regarded as a supporter of United States Senator Berry, who is a candidate for re-election and for which office Governor Davis is also a candidate.

Negro Kills White Man.

Montezuma, Ga., Nov. 29.—W. P. Deal, a respected white Farmer of Macon county, was killed. He was shot through the heart. Mr. Deal had a warrant for the arrest of Williams, who had slipped the county some months previous. He had recently returned and when Mr. Deal called to see him at his home the negro came to the door and emptied a load of shot into the body of Mr. Deal, who dropped to the ground dead. The whole community is aroused over the crime, and a posse is in search of the murderer. The murdered man leaves a wife and seven children."

BANK IMPROVEMENTS.

First National Bank Will Make Extensive Alterations in Buildings.

The First National Bank has contemplated and will put into execution extensive alterations in the building now occupied, the increase in business having demanded more modern accommodations.

The entire front of the building will be torn away and an elegant plate glass front will be installed. The interior of the room will also be improved and when completed the First National will have one of the nobbiest and most convenient banking houses in the State.

During the progress of these changes the First National will occupy the room at the corner of West Main and Mechanic streets, one door north of the Brown House office.

MR. HENDERSON PLEASED.

Says Industrial Edition of The Sun Finest Ever Published Here.

F. P. Henderson, the nurseryman of Arno, is evidently well pleased with the Industrial Editon of The Sun, as he orders a dozen copies sent to his address, and concludes with the statement that the issue does credit to The Sun and to Alachua county, and he believes will be instrumental in inducing many settlers to this section.

Mr. Henderson owns a large peach orchard at Arno, and is regarded as one of the most thoroughly posted men on peach growing in the South, as he has made it a life-long study. It was through his courtesy that the article on peach culture was published in the Industrial Edition, he being the author of the same.

Death at Wacahoota.

Mrs. Claudia Beach of South Carolina died at the home of her sister, Mrs. R. S. Bradley, Wacahoota, Tuesday morning, and was buried in the Baptist church cemetery near that place Tuesday afternoon, Rev. Dr. Waddell, the Presbyterian minister of Archer, officiating.

Deceased was born at Old Newnansville in 1849, consequently was fifty-six years of age. She was married near Newnansville, afterwards moving to South Carolina, where she has since resided up to a few months ago, when ill health compelled her to return to Florida. At the time of her death she was visiting Mr. Bradley.

Deceased was also a sister of S. L. Blanton of Forrest Grove and J. W. Exley of Newberry, and both brothers were at her bedside when the end came.

The Sun, with other friends, extends sympathy.

The Swine Exhibit at the Fair Was the Finest Ever Seen in the South, and Among the Most Select Were Hogs From Alachua County.

The live stock exhibit at the Florida State Fair, upon which awards have been made, is one of the best ever seen in the South, and went to show the rapid advancement Florida has made in this important industry within the past few years. While the number of cattle was not so great as in some Northern shows, the specimens were in every way creditable, and would have held good positions in any stock show in the United States.

As will be noted, the Alachua county exhibit made a good showing, prizes having been awarded to the Spring Park Stock Farm Company and to Burrell Wiggins of Hague. HE SPOKE OF LUTHER.

Pointed And Eloquent Lecture at Second Advent Church.

The Live Oak Daily Democrat of Tuesday, November 28th, has the following:

"The lecture on Dr. Martin Luther at the Advent church on Sunday night by Dr. F. A. Holtzhauzen from Wittenberg, Germany, was well attended and listened to with rapt attention from start to finish.

"The chief aim of this lecture is to impress upon the old and young the greatness, the glory and the power of individual soul liberty. It was pointed out as the keynote of all true and ever increasing progress of the ages past, and the Magna Charter from every form of bondage individual and national.

"The lecturer declared Moses, Jesus and Luther to be the chief emancipators of the human race. He made the Son of Mary and of God the center of liberating power.

"This lecture cannot fail to be productive of great service wherever it may be given, for it brings information, illumination and inspiration to all who have the privilege of hearing it."

IN CIRCUIT COURT.

Only Two Cases Tried Yesterday and Both Prisoners Convicted.

Yesterday was a dull day in the circuit court, only two cases having been disposed of.

In the morning the case of the State vs. Robert Cook, rape, was called. Prisoner arraigned and pleaded not guilty. Jury sworn, evidence and argument submitted, and the verdict returned of guilty with recommendation to mercy.

In the afternoon the case of the State vs. J. M. Whitley, grand larceny, was tried, the jury bringing in a verdict of guilty.

Thursday being Thanksgiving, the court adjourned until Friday afternoon at 2 o'clock.

CONNECTED WITH HAMPTON.

Southern Bell Telephone Company Now Offers a Service.

The long-distance line of the Southern Bell Telephone Company, which has been in construction for the past few months, was Wednesday morning connected with Hampton and several messages were transmitted between Gainesville and that point. The Sun representative had the pleasure of a moment's conversation with Marshal A. A. Durden at Hampton and found the service to be up-to-date in every way.

Local Manager Goodwin stated Wednesday that the probabilities are that the line will be connected at Starke within three or four days.

STROBHAR AGAIN HELD.

Had Been Released on Florida Charge of Embezzlement.

Montreal, November 29.—James N. Strobhar, the Atlantic Coast Line agent arrested here about two weeks ago on a charge of embezzlement, was released yesterday on the charge of embezzling $7,500 in Florida, and immediately rearrested on another charge of embezzling $1,800 in Georgia.

ANOTHER STRIKE THREATENS RUSSIA

Demands Are Made That Men Be Given Work.

ON THE VERGE OF STARVATION

Workmen Seek to Compel Employers to Reinstate Their Former Employes at an Advanced Wage—Situation Unchanged at Sebastopol.

St. Petersburg, Nov. 29.—The workmen's council threatens the country with another general strike to compel the employers of St. Petersburg who locked out about 70,000 men yesterday to re-open their doors.

The men had refused to return to work under the old conditions. The delegates have been dispatched to cities in the interior to ascertain whether they will support the movement.

Destitution is causing many workmen here to turn against the agitators.

During the last strike actual starvation prevailed. The men had neither money to buy food or bury the dead.

There were cases of workmen remaining naked in bed at home having pawned every stitch of clothing to relieve hunger of their families and themselves.

Situaton at Sebastopol.

Sebastopol, Nov. 29.—The time-limit allowed the mutinous sailors to surrender expires today. The command of the cruisers Otchakoff, whose crew mutinied, has been assumed by Lieutenant Schedt who was dismissed from the service on account of his revolutionary tendencies.

The town council has asked for help to save the city.

Effect of Japan-Russian War.

Washington, Nov. 29.—It is believed in diplomatic circles here that the recent war between Japan and Russia has had no little to do with the recent attitude of the sultan towards the European powers. It is a well known fact that Turkey has watched the war with the greatest interest. Japan and Turkey are no strangers to each other, for in recent years the two sovereigns have exchanged presents and expressions of good will. The Turkish newspapers and the Turkish public opinion favored the Japanese cause from the beginning. Naval authorities here expressed the opinion that the Turks who have been trained fairly well by German and French officers, can defend the entrance to the sea of Marmora with a good hope of success.

Wants a Shipping Monopoly.

New York, Nov. 29.—A cable dispatch to the Herald from Berlin says that owing to the efforts of influential personages a meeting has been arranged in Berlin between Herr Ballin, the managing director of the Hamburg-American line, and Dr. Weigand, managing director of the North German Lloyd, and several other officials of both companies, when the matters now in dispute will be discussed. The opinion prevails here that Herr Ballin has attempted to obtain the world's monopoly in German shipping, similar to Mr. Rockefeller's position in the petroleum market. It is proposed that failing an agreement at the meeting, the dispute will be referred to arbitration.

Marshall Field, Jr., Dies.

Chicago, Nov. 29.—Marshall Field Jr., died Monday. Mr. Field, who was the only son of Marshall Field, the multi-millionaire of this city, was accidentally shot on the afternoon of Wednesday, Nov. 22. He was examining a new revolver which he had purchased, when it was discharged. The bullet struck in the right side, perforating the liver and spleen and injuring the spinal cord.

Clamor for Universal Suffrage.

Vienna, Nov. 29.—Some 300,00 representatives of organized labor made a demonstration before the parliament buildings today and paraded the streets of the capital in support of their demand for the election of members of the reichsrath by universal, equal and direct suffrage.

THIRD WEEK OF CIRCUIT COURT

Many Cases Were Disposed of Monday by Nol Prosse.

SAVED THE COUNTY EXPENSE

These Cases Were for Doing Business Without a License, and Upon Payment of Costs in Each Case—One Murder Case Nol Prossed.

From Tuesday's Daily Sun.

The circuit court convened for the third week at 9 o'clock Monday morning, His Honor Judge Wills presiding.

The sheriff returned the venire of jurors summoned, and the following jury was sworn and empanelled for the week:

J. W. English, J. V. Fralick, G. D. Bethea, J. L. Chesser, C. C. Fletcher, W. W. Avera, J. M. Mason, Alex Howe, J. A. McKinstry, Alex. Avera, E. Baird and D. A. Robertson.

A large number of parties were arraigned upon a charge of doing business without a license, but were nol prosed upon payment of the costs, thus saving the time and expense of trying these cases before the court.

In the case of the State vs. Chas. Wikler, charged with murder, case nol prossed for good and sufficient cause.

The following cases came before the court:

State vs. James Henry, murder. Prisoner was brought into open court, arraigned and pleaded not guilty.

State vs. Dorsey Holmes, selling liquor in a dry county. Prisoner arraigned and pleaded not guilty. Jury sworn and case went to trial. Verdict returned of guilty.

State vs. Charley Roberts, selling liquor in a dry county, two counts. Prisoner arraigned and pleaded not guilty. Jury sworn and case tried, with verdict of guilty in both counts.

State vs. Julius Washington, selling liquor in a dry county. Prisoner arraigned and pleaded not guilty. Jury sworn and case went to trial, but after part of the evidence was taken case nol prossed, as it was seen there was not sufficient evidence to convict the defendant.

The negro, James Henry, charged with murder, is represented by able counsel, Ex-Lieutenant James H. Tillman of Edgefield, S. C., and Attorney Robert E. Davis of this city having been employed to defend him.

There being no further business before the court, an adjournment was ordered until 9 o'clock Tuesday morning.

From present indications the court will continue until the latter part of next week, as a large number of cases are yet to be disposed of.

DEATH OF AGED LADY.

Mrs. Maria Parrish Passed Away at Her Home Near Hague Sunday.

Mrs. Maria Parrish, mother of P. A. Parrish, died at her home near Hague Sunday of old age.

In the death of this noble character Alachua county loses probably its most aged resident. She was nearly a century old, and has lived in Alachua county for half a century. One interesting feature of her life was the fact that she was a school girl about fourteen years of age in Augusta, Ga., when General LaFayette, the famous French general, paid his last visit to the United States, and was present at the reception tendered that distinguished soldier and statesman in Augusta, Ga., also witnessing the military parade upon that occasion. This was in the year 1825, and she remembered the incident distinctly up to the time of her death.

The deceased was a devout Christian, a member of the Baptist Church. She was buried in the Hatchet Creek cemetery Monday afternoon, and the funeral was largely attended.

The Sun extends sympathy to the bereaved relatives.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J. W. McCollum & Co.

NOT A "PATENT MEDICINE."

Scott's Emulsion is not a "patent medicine." It has no secret ingredients. Your doctor can, no doubt, tell you as much about it as we could. We have merely perfected the method of blending the Norwegian cod liver oil, hypophosphites of lime and soda and glycerine. As one grocer will blend coffee better than another so we have succeeded in making Scott's Emulsion a little better than any other cod liver oil preparation. There's no "patent" and the only secret is the secret of knowing how, with the perfected mechanical means at hand to do it. Get Scott's and you get the perfect emulsion. It's the greatest thing in the world for regaining strength and flesh lost through wasting.

PROMINENT VISITOR HERE.

Ex-Lieutenant Tillman of South Carolina Here Attending Court.

Among the prominent visitors to Gainesville this week is Hon. James H. Tillman of Edgefield, S. C., who is here for the purpose of defending James Henry, charged with murder. He is accompanied by his bright little nephew, George Tillman Bailey.

Few men in the Palmetto State are more widely known or more popular than James H. Tillman, who has had the honor of serving his people in the high position of lieutenant-governor. He is a gentleman possessed of that hospitable Southern nature which is bound to make friends anywhere and any time. He is regarded as one of the ablest lawyers in his State, and speaks in a most interesting manner.

Col. Tillman paid Gainesville a visit in the spring, upon which occasion he made many friends. "I think Gainesville is one of the prettiest towns I have ever seen," he remarked in the lobby of the Brown House to a party of friends Monday night. "I so much admire your broad, beautiful avenues and streets, and your grand, stately old oaks, some of which must have been here for ages. I note, also, a big improvement in the building up of your town, which alone is ample evidence of the thrift and energy of your people."

Col. Tillman has associated with him in the case referred to Attorney Robert E. Davis of this city and it is needless to add that it is a good team.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

Death of Walter A. Davis.

Friends in this city of Walter M. Davis will regret to learn of the death of his eleven-year-old son, Walter Ackerman Davis, which occurred at the home of his parents, Jacksonville, Saturday. The death was a particularly sad one, since the little fellow fell a victim of the bite of a mad dog, and died from hydrophobia. The funeral was held Sunday. Friends extend sincere sympathy to the bereaved parents.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

COTTON GROWERS.

Call For a General Organization in All Cotton States.

The Sea Island cotton growers of Georgia and Florida met in convention at Valdosta, Ga., on November 23rd, and perfected a permanent organization as a branch of the Southern Cotton Growers' Association.

In order to thoroughly perfect district and county organizations of growers of Sea Island cotton it is urged that local meetings be held in each of the militia districts in Georgia and voting precincts in Florida on the first Saturday in December, for the purpose of electing from two to five delegates in each district or precinct to attend the county meetings to be held at all county seats or other convenient place in said county, on the second Saturday in December for the purpose of perfecting county organizations.

It is highly important that these meetings be held as called for, in order that the Sea Island Cotton Association may be fully perfected at the earliest possible date.

All county organizations that are perfected on the second Saturday in December should promptly notify F. G. Schell, Secretary Sea Island Cotton Growers' Association, Lake Butler, Fla., with full list of officers elected and the names and postoffice addresses of all members enrolled.

Constitutions, by-laws and other literature will be furnished upon application to secretary or president of the association.

WOMAN WAS BURNED TO DEATH AT WADE

Awful Fate of Annie Nelson at That Place Saturday Night.

TWO HOUSES WERE DESTROYED

The Heat Was So Intense That Those Who Were Aware of the Presence of the Woman in the House Were Unable to Rescue Her.

Wade, Nov. 28.—Saturday morning about 2 o'clock fire started in a house owned and occupied by Austell Nelson and Annie Nelson, colored, also known as Annie Childs, and in less than ten minutes the house and also another house used for a restaurant, were burned to the ground and Annie Nelson perished in the fire.

The woman, about 35 years old, had been addicted to the use of morphine, and that night it is supposed she took an overdose and in throwing the cover off her bed while laying on it, she threw it on the lamp, which was setting close to the bed, starting the fire. Help responded immediately, but owing to the heat no one could get close enough to the woman to give any aid. In trying to get to the door she must have been overcome by the heat and fell over her sewing machine. Her whole body was burned except the backbone and skull, and the remains were buried Saturday afternoon.

There being no sign of foul play an inquest was deemed unnecessary.

The woman also lost some money and about $150 in household goods.

METZ-HAILE.

An Early Morning Marriage of Two Popular Young People.

On Tuesday morning at half-past six o'clock there was a wedding at the home of Mrs. Rachel Haile, South Arredondo street, the contracting parties being Mrs. Haile's accomplished daughter, Miss Elizabeth Serena, and Mr. Thomas Groom Metz of Wilmington, Del. The ceremony was performed in a most impressive manner by Rev. Thos. P. Hay, of the First Presbyterian Church. The affair was a quiet one, only the immediate family, the minister and his wife, being present.

Immediately after the ceremony the party partook of a wedding breakfast, when they were driven to the station and took the train for St. Augustine and points on the East Coast. After a few days' honeymoon in Florida, they will proceed to Wilmington, their future home.

Miss Haile is one of Gainesville's loveliest and most popular daughters. She was a leader in society, and will be greatly missed by the young society folks. The groom is a very popular young man, and stands well in the community in which he resides. He holds the responsible position of chief clerk to the president of the Pennsylvania Railroad.

The Sun, with other friends, extends congratulations, with the wish that their married life may be one of continued, undisturbed happiness.

Best Liniment on Earth.

A Prominent Visitor.

Among the prominent Palatka people visiting this city yesterday was Colonel Harry M. deMontmollin, a member of the firm of the Stanton Foundry and Machine Company.

Col. deMontmollin is well known in military circles throughout the State, having been identified with the Florida State Troops for many years. He was for some time captain of the Gem City Guards, which was during his administration conceded to be the crack military company of the State. Retiring from the command of this company he was selected by Governor Jennings as a member of his staff with the rank of Colonel and retains this same distinctive honor under the administration of Governor Broward.

Few men in Florida are more thoroughly posted on tactics than is Colonel deMontmollin.

Mrs. Potts Tells How Women Should Prepare for Motherhood

The darkest days of husband and wife are when they come to look forward to childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to a displacement of the womb or lack of strength in the generative organs.

Mrs. Anna Potts

Frequent backache and distressing pains, accompanied by offensive discharges and generally by irregular and scanty menstruation indicate a displacement or nerve degeneration of the womb and surrounding organs.

The question that troubles women is how can a woman who has some female trouble bear healthy children?

Mrs. Anna Potts, of 510 Park Avenue, Hot Springs, Ark., writes:

My Dear Mrs. Pinkham:—

"During the early part of my married life I was delicate in health; both my husband and I were very anxious for a child to bless our home, but I had two miscarriages, and could not carry a child to maturity. A neighbor who had been cured by Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so and soon felt that I was growing stronger, my headaches and backaches left me, I had no more bearing-down pains, and felt like a new woman. Within a year I became the mother of a strong, healthy child, the joy of our home. Lydia E. Pinkham's Vegetable Compound is certainly a splendid remedy, and I wish every woman who wants to become a mother would try it."

Actual sterility in woman is very rare. If any woman thinks she is sterile, let her try Lydia E. Pinkham's Vegetable Compound and write to Mrs. Pinkham, Lynn, Mass. Her advice is free to expectant or would-be mothers.

This Section Shipping Lettuce, Beans and Peas—Prices Good.

The movement of lettuce, peas and beans is reported from this section, and already several nice shipments have been made to the Northern markets, where good prices have been realized.

A prominent commission man stated to The Sun representative Tuesday that, while the acreage this season is not so extensive as last, the products seem to thrive better, and are of a superior quality. He states that, from his observation in various sections of the State, the Alachua county lettuce, so far as fineness and quality is concerned, is far ahead of anything. He predicts that Alachua county lettuce will bring a higher price than any other in the markets.

The yellow fever epidemic at Pensacola is said to have cost the State $30,000.

A cynical Kansas editor remarks that some engagements end happily and some in marriage.

For the many blessings we have enjoyed the past year and our freedom from any calamity or misfortune of a serious nature, Gainesville should be most truly thankful.

The Recorder's Court in Pensacola is making it very warm for the people who use profane and obscene language on the streets of that city, and the average sentence has been raised for female "cussers" from 30 to 40 days in the stone yard.

The Tampa Fair, known as the Florida Mid-Winter State Fair, closes today one of the greatest exhibitions of the products of this State ever before seen, and the next fair will be still greater, as there is no State in the Union that is advancing more rapidly than Florida.

We are in recipt of frequent letters from parties inquiring about real estate in Alachua county, and some of these letters are from men who are anxious to know in regard to the prices of real estate in the city and farming lands; but as we do not have the time to write letters to all of them and pay postage on the same, we simply send copies of The Sun, so they can see who are the men who have property for sale. There may be others who have property they would like to dispose of, but as they do not make the fact known we refrain from mentioning their names, lest we might offend them. If you want to take advantage of these inquiries, put a small advertisement in The Sun.

The severe cold weather in the North, which appeared quite early this season, has been the means of starting many people South, and they are all glad they have come, for the beautiful weather of the fall season has shown many that our climate is most delightful at this season. The weather on Sunday was as balmy as a perfect summer day, the air pure, with a gentle shower to lay the dust. The showers in Florida make it most agreeable for all, and there is never a time when the dust is half so annoying as in other winter resort countries. Perfect days, cool nights and frequent showers make Florida healthy, and those who are shouting about "malaria" don't know what they are talking about.

ALACHUA AT THE FAIR.

Hal P. Denton, in The Tampa Tribune, pays the following compliment to Alachua county's exhibit at the State Fair:

"One of the substantial, as well as one of the most attractive exhibits at the State Fair is that made by the enterprising citizens of Alachua county. By reason of geographical position Alachua county comes within the cotton district of the South. The exhibits in cotton are among the best in the great industrial hall, and will unquestionably receive due recognition in the awarding of prizes.

"A practical demonstration of the ginning of cotton is given within the booth. An engine furnishes the power for the operation of a cotton gin. Ginning Sea Island cotton as it should be done is no easy task and not as simple as people generally suppose. To gin cotton clean and have it sample well is to have the work done on a machine that is as nearly perfect as possible.

"The machine that is on exhibition at the Fair is the result of the mechanical genius of a citizen of Gainesville, James Doig, who worked for years in fetching his invention to perfection. The fact that this cotton gin, every part of it, is manufactured in the city of Gainesville, makes it of peculiar interest to the people of Alachua county and the hundreds who have watched its operation.

"The exhibits of cotton raised within the borders of the county are made by C. C. Williams, J. G. Dampier, W. L. Clinton and Edward K. Anderson. The bale exhibited by Mr. Anderson, who hails from High Springs, is conceded by everyone who is interested in the production of cotton to be among the best that has ever been exhibited in the State.

"The thriving city of Gainesville prides itself that it is a manufacturing city as well as being in the center of a county that produces fruit and vegetables. Alachua county suffered from the big freeze of a few years ago, and the growth of citrus products was naturally retarded. The farmers and fruit growers were undaunted, and their display is a very creditable one and worthy of particular attention.

"Persons in full enjoyment of health are naturally not interested in such a gruesome exhibit as that made by the Gainesville Planing and Coffin Company, but those who realize that 'in the midst of life we are in death,' and who appreciate how important it is to properly dispose of the dead, will see an exhibit of caskets that are of the best make in the country. The products of this company are shipped to every part of the United States.

"Sugar cane goes to make up one of the most interesting features of the Alachua county exhibit. There are many fine specimens of ribbon cane, white cane and Japanese cane. The collection was made by the leading farmers and growers of the county.

"Corn, oats, peanuts, chestnuts, hickorynuts and pecans make up another fine exhibit. The school board of Gainesville made an offer of a paid trip to the State Fair to the boy who made the largest collection of native woods. Master Tom Duke collected seventy-nine varieties and received the prize.

"In a geological way nature has been very kind to Alachua county. In vast quantities are found rocks that may be used for paving purposes. This material is sent to different parts of the country and is one of the leading industries. The exhibit shows the material in different varieties.

"T[illegible]entine and rosin, which are [illegible]uced in large quantities, make up the [illegible] stores exhibit. The Golden Rule Bottling Works of Gainesville has an interesting display of ginger ale and other soft drinks that are prepared by it for the trade.

"W. O. Smith of Tacoma has brought to the State Fair a gross of jars of guava jelly, giving a fair idea of the extent of that industry. The Gainesville Nurseries, represented by Mr. Graves, its president, has a dozen or more pecan trees in bud.

"Alachua county produces a great amount of fertilizers and the Standard Fertilizer Company, of which Bunch & Wood are proprietors, has an excellent exhibit of this material, which is always in demand by progressive farmers.

"One part of the booth is devoted to a display of hay, crab grass, velvet beans and fodder, hay, rice, oats in sheaf, rye, corn in the ear and other similar products that are essential to the feeding of stock.

"Major John W. Tench is the commissioner from Alachua county. He was here in the early part of the Fair and worked early and late in getting the products of his county in shape for exhibition. He has been ably assisted by Hon. C. C. Pedrick, Mr. Graves, Mr. Bunch, Mr. Carter and others from the county who are attending the great exposition. Mr. Tench was summoned to Gainesville yesterday morning as a witness in the famous Sheats-Holloway case which is being heard before the court. During his absence the booth is in charge of his estimable wife, who is doing everything possible to make the visitors happy.

"There is one thing that the people of Gainesville and Alachua county are proud of and that is the water that is taken from the well known Boulware Springs. These springs supply the city with water and there is a demand for it from other parts of the country because of its healthful mineral qualities. Twenty barrels of it were shipped to Tampa and it is dispensed within the booth.

"The resting-room is one of the pleasantest in the Industrial Hall. There are chairs and divans. A talented pianist dispenses good music and everyone is made to feel at home. About the walls are photographs of the homes of the leading citizens. The people of the county may well be proud of the prosperity that is evidenced by the exhibit. That the visitors to the Fair appreciate the interest taken in making the success is evidenced by the fact that 8,000 names grace the register that is kept."

BLUE AND GRAY.

As another evidence of the advancement the civilization of Florida is making, no grander scene could be imagined than the greeting of the Jewell brothers at the blue and gray reunion in Tampa last week. The Tampa Tribune in speaking of the meeting of the brothers says:

"To any of the several thousand people who listened to the speeches of General Jewell, the much-loved commander of the Third Brigade of the United Confederate Veterans of Florida who fought for the dearly-prized cause of the South, and of his brother, B. Wood Jewell of Omaha, Nebraska, who fought as valiantly for the preservation of the Union, it must have been a patriotic lesson.

"General Jewell and his brother are natives of Massachusetts. Before the great internecine conflict the General came to Florida. He created interests here and when war was declared he was found in the front ranks defending the cause that he thought to be right and just.

"His brother, a little older, who had remained at the old home in New England, was naturally imbued with the spirit that dominated the people of that section. Wood Jewell shouldered his musket and knapsack and invaded the South and he was met on the field of battle by men who wore the gray with his brother.

"One dressed in the uniform of gray, the other in blue, Friday spoke from the same place. It was a pathetic scene—one long to be remembered—when General Jewell before the vast audience embraced his brother and kissed him. The ties of flesh and blood are stronger than any other in the world."

The fact is plain that the gallant soldiers of both armies have long ago buried all feeling of enmity, and there are no more loyal citizens than the old comrades of the "blue and gray."

At a recent political meeting in New York a candidate yelled: "What is the one thing that we of this community are suffering most from at this time?" There was a silence and then a man with a big, deep voice, said, "bed bugs."

The Jacksonville Pure Food Exposition, January 4th to 18th, will be the largest ever held in Florida. The industries of Florida will be well displayed.

FIRST SOLID CAR FROM STATE

So Far as Can be Learned—Shipment Made Up From Growers of Rocky Point and Gainesville Sections, and Was Consigned to New York.

The first solid carload of lettuce to be shipped from this county, and possibly the State, for the season, went forward from Gainesville over the Seaboard Air Line Wednesday. The consignment was by the Armour Car Lines, and comprised three hundred and eighty-four baskets of as fine lettuce as was ever grown in the State. The car was consigned to New York, and was made up from the farms of the Gainesville and Rocky Point sections.

The growers state that the crop this season of lettuce, peas and beans, while not so large as last year, will be far superior in quality, and so far have demonstrated better carrying qualities. The growers are anticipating good returns from all shipments from this section.

DON'T NEGLECT A COLD.

Neglected Colds Lead to Consumption.

PE-RU-NA CURES COLDS AND COUGHS.

How Pretty Miss Powell Was Restored to Health by Pe-ru-na.

Miss Lillian Powell, Aurora, Ind., writes:

"Last spring I caught a severe cold from getting my feet wet and being out in the rain, and in a day I had a most miserable cold, but I neglected it, thinking it would soon leave me. But it hung to me for two weeks, when I felt something must be done, as my condition was serious.

"I had heard so much about Peruna and in its praise that I bought a bottle and began taking it regularly. I was gratified to find that in a week the cold and cough was broken up, and three weeks' treatment completely restored my usual good health."—Lillian Powell.

How Consumption Develops.

Nine cases of consumption out of ten occur in this way:

A person catches cold. The cold is not properly cured, and another cold is caught.

This cold is dilly-dallied with, either by no treatment whatever or some treatment that is ineffectual, and the cold continues.

Then another cold is caught and a cough develops. Cough syrups are resorted to, but they give only temporary relief.

By and by the patient gets tired of taking medicines and cough syrups and gives up in despair.

The cold continues to develop and the cough grows worse.

Then the doctor is called in, only to discover that the patient is in the first stages of consumption.

It was just in this way that Miss Powell, of Aurora, Ind., became sick. She caught a cold, and not considering it serious, neglected it, thinking as many others do, that it would "wear off."

However, it clung to her tenaciously, and in two weeks she found her health in a serious condition.

Fortunately, Peruna had been brought to her notice, and she took a course of this remedy before it was too late.

In a week the cough and cold were broken, and a three weeks' treatment completely restored her to health.

This is what Peruna is doing all the while. Not a day, and probably not an hour passes in which some one does not have a similar experience with Peruna.

Cure the Slight Colds and Avoid Consumption.

The first step toward consumption is a cold. The next step is a failure to cure it promptly. The third step is the development of catarrh, which gradually becomes chronic. The fourth step, the catarrh begins to spread from the head to the throat, then to the bronchial tubes, and finally into the lungs. It is then consumption in the first stage.

At any time during the progress of catarrh, from the first onset of the cold to its final settlement in the lungs, Peruna can be relied upon to stop the disease. If you have taken a cold, buy Peruna without delay. One bottle in the beginning will do more good than a half dozen bottles after the catarrh has fastened itself on the lungs.

Thousands of Testimonials.

We have on file thousands of testimonials from people who have been cured of catarrh of the lungs by Peruna. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements we are receiving every month. No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Peruna.

The Riddell Carnival Company is holding forth at Orlando.

Starke is to have a ten-ton ice plant to be in operation by March 1st, 1906.

Lyle & Company are sending a carload of oranges every day from Bartow.

There was a mad dog in Dunnellon the other day that succeeded in biting two persons before he was killed.

The whooping cough and mumps are getting in their work at Quincy and it is said they are "whooping it up" on nearly every corner.

L. J. Carmichael of Benton Harbor, Mich., was killed on Monday by the accidental discharge of his gun while in the woods near Ocala.

The DeSoto county teachers will meet in Arcadia Friday, December 1st, and tell all they know about teaching the young idea to shoot.

The flower garden of Rev. J. B. Ley at Live Oak was ruined by rambling cows running at large on Friday night. The city should be made to pay damages.

Chicken owners at Winter Park are bound to save their poultry if they have to keep an arsenal in the house and practice target shooting on the hen-house intruders.

In a fight on the steamer Manatee, en route from Tampa to St. Petersburg, Friday, the colored cook was stabbed by the steward with an ice pick. He will recover.

Winter Park is a healthy spot. Andrew Richmond of that place celebrated his 86th birthday a few days ago, and Mrs. Guild entertained at her 80th birthday anniversary.

The fifty Mexicans who were landed in Marion county to work in the phosphate mines have found the labor too strenuous and have taken a "tie pass" to return to their own Mexico.

Capt. Pat Higgins, who has a fine grove just across the river from Astor at Volusia, has an estimated crop of 3,000 boxes of oranges which he has sold to a Boston firm at $2 a box f. o. b. —Tavares Herald.

J. C. Westcott of Wilmington, N. C., committed suicide at the Commercial Hotel, Pensacola, Friday, by taking an overdose of laudanum. He was despondent and 25 years old. His remains were sent to his home.

Frank Turpin, a "newsy" on the F. E. C. Railroad, running between Miami and Jacksonville, was arrested on Saturday for snatching a purse from a woman in the former city containing upwards of $40. He owned up to the theft.

In the circuit court at DeLand Edgar Alexander was acquitted of the charge of murder Thursday, and John Fisher received a life sentence for rape, while James and Sarah Newton are to be hanged for murder unless an appeal is granted.

Two gentlemen from New York, Mr. Wm. Allen and B. D. Halens, upon returning from a tour of investigation through Cuba, stopped with friends in Titusville and, according to The Florida Star, they report that after careful investigation they believe that the orange industry of Cuba will not hurt this State; that the duty and inland transportation to seaports prevents the profitable raising of fruit. Mr. Allen owns several groves in Florida and Porto Rico, and talks with some knowledge of the subject.

J. H Graves, an employe at No. 10 phosphate mine of the Dunnellon Phosphate Company, met a horrible death at the plant November 25th. He attempted to swing a large water hose in position to wash the floor where he was standing, but the water pressure was so great that it threw him in the rock crusher close by, which mangled his legs fearfully, almost tearing them from his body before the machinery could be stopped. Mr. Graves leaves a wife and several children. He was about sixty-five years old.

The Kissimmee Valley Gazette says that Florida citrus fruits are now ripe and in fine juice and flavor. A great deal of the fruit has been shipped green this season, which will probably have the effect of making our Northern friends skeptical as to the superiority of our far-famed fruits, but if they will give them a trial now they will no doubt be convinced that Florida oranges possess all the good qualities claimed for them and more, too, if possible. The fruit is now going forward at a rapid rate and it is thought there will be very little left in this section of the State after the holidays.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavensworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

ONE MAN FOUND GUILTY OF MURDER

He Was Recommended to the Mercy of the Court.

KILLED HIS WIFE WITH AN AXE

That Was the Specification, But the Evidence Looked to the Jury to be Entirely Circumstantial, Which Saved the Prisoner's Neck.

The circuit court convened at 9 o'clock Tuesday morning, His Honor Judge Wills presiding.

There was little doing in the court during the day, the day having been confined to the trial of one case, that of the State vs. John W. Green, charged with murder.

The specification of the charge was to the effect that the defendant, John Green, on a certain day and date, did advance upon his wife with an axe and split her head open, resulting in her death. This tragedy occurred at the home of the Greens, near Newberry.

The case occupied the attention of the court during nearly the entire day. The prisoner being arraigned several days ago, pleaded not guilty, and the case came on to be heard. A jury was sworn as follows: J C. Balis, foreman; J. F. Fralick, C. C. Fletcher, Howe, Alex Avera, J. A. McKinney, D. A. Robertson, C. Ahrentz, Seagle, H. C. Roth, A. J. Davis, J. L. Strickland.

The case went to trial, evidence submitted, argument made, and verdict of guilty of murder in the first degree with a recommendation to mercy.

The State of Florida vs. Charles Washington, selling liquor without a license. Prisoner arraigned and pleaded guilty. After the transaction of a few minor affairs, the court adjourned until 9 o'clock Wednesday morning.

Alumnae To Hold Banquet.

Nashville, Tenn., Nov. 28.—Tomorrow night the alumnae of Princeton University from Tennessee and other southern states will gather here at the first annual banquet given by the Princeton Alumnae association of Tennessee. President Woodrow Wilson, of Princeton, is to be the guest of honor at the banquet and will deliver an address. Dr. Wilson arrived here today.

Nervous Worn-Out

If you are in this condition, your nerve force is weak—the power is giving out; the organs of your body have "slowed up," and do their work imperfectly. This failure to do the work required, clogs the system and brings distress and disease. When the nerves are weak the heart is unable to force the life-giving blood through your veins; the stomach fails to digest food; the kidneys lack power to filter impurities from the blood, and the poisonous waste remains in the system to breed disease. Nerve energy must be restored. Dr. Miles' Nervine will do it, because it strengthens the nerves; it is a nerve medicine and tonic, that rebuilds the entire nervous system.

"Several years ago I was all broken down. I was nervous, worn-out, could not sleep, and was in constant pain. I doctored for months, and finally the doctor said he could do nothing for me. I began taking Dr. Miles' Nervine, and used altogether eight bottles, and I became strong and healthy, and now weigh 170 pounds."
H. C. CUNNINGHAM,
Ellsworth Ave., Allegheny, Pa.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

DISFIGURED WITH ECZEMA

Under Physicians Five Months. Went from Bad to Worse.

CURED BY CUTICURA

Wonderful Change in One Night. In a Month Face Was Clean as Ever.

"I was troubled with eczema on the face for five months, during which time I was in the care of physicians. My face was in such a condition that I could not go out. It was going from bad to worse and I gave up all hope, when a friend of mine highly recommended Cuticura remedies. The first night after I washed my face with Cuticura Soap and used Cuticura Ointment and Cuticura Resolvent it changed wonderfully, and continuing the treatment it removed all scales and scabs. From that day I was able to go out, and in a month my face was as clean as ever."

THE AGONIZING

Itching and Burning of the Skin

As in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of wornout parents, as in milk crust, tetter and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures of the civilized world. Absolutely pure.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), Ointment, 50c., Soap, 25c. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Boston, 137 Columbus Ave. Potter Drug & Chem. Corp., Sole Proprietors.

OUR SPECIAL EDITION.

The Gainesville Sun is out with a magnificent industrial edition. In its descriptive references to Alachua county and Gainesville, The Sun has spared nothing. It is a most comprehensive paper and ought to be of advantage as a guide to the homeseeker—Live Oak Daily Democrat.

The Industrial Edition of The Gainesville Sun is a credit to the publisher and to the town. It shows what the homeseekers may accomplish if they will settle in old Alachua. Alachua is first on the roll of Florida counties and does not yield precedence to any other in other respects.—Jacksonville Times-Union.

The Industrial Edition just published of The Gainesville Sun has made a striking hit as a fine piece of work in its write-up of the city, arrangement, typographical work and amount of advertising displayed. Nothing less could be expected of The Sun, but at the same time it is an output that adds still greater laurels to the journalistic brows of that paper's talented staff.—Gainesville Elevator.

PRISONERS KILL OFFICERS.

Russians Who Were Held in Japan Mutinied Against Keepers.

Vladivostok, Nov. 28.—The Russian prisoners returning here from Japan are in such a state of mutiny because it is impossible to immediately ship them back to Russia, that it became necessary to form a camp where they are held under guard.

On Saturday there was a tragic uprising at the camp, on Cape Chokmin where a thousand prisoners from Port Arthur are confined. A drunken soldier who refused to salute an officer was sabred on the spot. His comrades rushed at the officer, who escaped to the officers' club, where he was joined by four other officers. They all made a hard fight for their lives with revolvers against the infuriated men, but before the arrival of a squadron of Cossacks, which had been hastily summoned by telephone, three of the officers were killed and one was terribly beaten.

About 30 men were killed in the struggle.

KILLED MAN IN SELF DEFENSE.

Tragedy Occurs in Parlor of Boarding House in Atlanta.

Atlanta, Nov. 28.—Dr. O. T. Kenyon, of Dawson, Ga., who shot and killed R. E. Dickerson at 135 Spring street Saturday night, was arraigned in the recorder's court this morning on the charge of discharging firearms in the city limits. No state case was made against Dr. Kenyon, the police believing from all the evidence that the killing was in self defense. The city case, it is said, was made merely to get the case on record and to have the facts brought out in court.

Dr. Kenyon was able to leave the Grady hospital Sunday, and walked about the street.

The shooting occurred in the front hall of Mrs. L. G. Weston's boarding house, and was the result of jealousy on the part of Dickerson, who became enraged because Dr. Kenyon had gone to the theater with Miss Florence Weston, the 15-year-old daughter of Mrs. Weston. Dickerson was in love with the young girl, and he had been denied the privilege of ecorting her out at night. He upbraided Mrs. Weston for not letting him go with the girl to the theater when she had allowed Dr. Kenyon was a married man, and an intimate friend of the family, and that while it would be right for the girl to go with him, it would be wrong for her to go with young men.

Senator Burton Found Guilty.

St. Louis, Nov. 28.—United States Senator J. Ralph Burton, of Kansas convicted in the federal circuit court of an indictment charging that he agreed to receive and did receive compensation for practicing as an attorney for a corporation before the post office department, will be called before Judge Vandeventer at 10 o'clock tomorrow morning to receive sentence. The maximum penalty for the offense is imprisonment for two years and a fine of $10,000 on each of the six counts on which Senator Burton was found guilty. Senator Burton's attorneys stated tonight that they would immediately ask for a new trial. It is practically certain that Judge Vandeventer will overrule the motion, and then a notice of appeal will be filed.

Conference Trials Ended.

Newnan, Ga., Nov. 28.—Dr. H. S. Bradley, pastor of Trinity church of Atlanta, has been exonerated of the charge of heresy preferred against him and Dr W. W. Wadsworth, pastor of the Hartwell church, charged with immoral conduct, was declared guilty of imprudence by the committee which investigated his case, and his suspension for one year was recommended to the conference. The reports of the committee in these cases were the chief matters of interest of the North Georgia conference of the Methodist Episcopal church, south, in session here.
